

On Friday, January 15, 2021 a notice was sent to Village of Long Grove residents regarding Waste Management's rate increase for waste removal and recycling services. It came to our attention that the rate increase for the cost of Limited Service for a small wheeled cart (35 gal) was misquoted. The rate should have been \$21.93/month. We apologize for any confusion this may have caused.

Additional Information: In 2018, the contract with Waste Management came up for renegotiation. The Village Board decided to go out for bid and received several proposals. After comparing waste haulers' services and fees, the Board decided to continue with Waste Management as the Village's residential waste hauler and negotiated a five-year contract.
